Formularios en Django

Campos

BooleanField
CharField
  max_length
  min_length
ChoiceField
  choices
TypedChoiceField
  choices
  coerce
  empty_value
DateField
  input_formats
DateTimeField
  input_formats
DecimalField
  max_value
  min_value
  max_digits
  decimal_places
EmailField
FileField
FilePathField
  path
  recursive
  match
  allow_files
  allow_folders
FloatField
ImageField
IntegerField
  max_value
  min_value
IPAddressField
GenericIPAddressField
MultipleChoiceField
  choices
TypedMultipleChoiceField
  choices
  coerce
  empty_value
NullBooleanField
RegexField
  regex
SlugField
TimeField
  input_formats
URLField
  max_length
  min_length

Campos ligeramente complejos

ComboField
  fields
MultiValueField
  fields
SplitDateTimeField
  input_date_formats
  input_time_formats

Argumentos comunes para los campos

required
label
initial
widget
help_text
error_messages
validators
localize

Widgets

Widget
  attrs
TextInput
PasswordInput
  render_value
HiddenInput
MultipleHiddenInput
  choices
FileInput
ClearableFileInput
DateInput
  format
DateTimeInput
  format
TimeInput
  format
Textarea
CheckboxInput
  check_test
Select
  choices
NullBooleanSelect
SelectMultiple
RadioSelect
CheckboxSelectMultiple
MultiWidget
  widgets
SplitDateTimeWidget
  date_format
  time_format
SplitHiddenDateTimeWidget
SelectDateWidget
  years

Campos que manejan relaciones

ModelChoiceField
  queryset
  empty_label
ModelMultipleChoiceField
  queryset

Validadores
(también sirven para modelos)

RegexValidator
  regex
  message
  code
URLValidator
validate_email
validate_slug
validate_ipv4_address
validate_ipv6_address
validate_ipv46_address
validate_comma_separated_integer_list
MaxValueValidator
  max_value
MinValueValidator
  min_value
MaxLengthValidator
  max_length
MinLengthValidator
  min_length
